

RESEARCH ANALYST

Andrew Blair joined Elenchus in January 2016 as a Research Analyst. He has supported Elenchus' work in cost allocation studies, jurisdictional reviews, regulated and unregulated activities reviews, load forecasting and load profile derivation. Andrew's principal responsibilities include research, modelling, and report-writing. Andrew previously worked for Ontario's Ministry of the Attorney General over a seven-year period as a trust analyst and a trust accountant. Andrew has a Master's Degree in Economics from Carleton University and a Bachelor's Degree in Economics and Financial Management from Wilfrid Laurier University.
