
CONSULTANT

Marc-Antoine has been providing direct consulting support for clients on energy issues since 2005, first as a Consumer Advocate and now as a Regulatory and Policy Consultant.

Marc-Antoine provided regulatory support to Quebec's largest consumer advocacy organizations and was responsible for supporting client interventions in regulatory proceedings, including issues analyses & strategic directions, preparation of interrogatories, participation in settlement conferences, preparation of evidence as well as final argument and appearance as witness. He has an extensive knowledge of the electricity and natural gas markets of that province.

Marc-Antoine has practical experiences of rates applications, spending reviews and incentive regulation; rate design and cost allocation; consumer protection and conditions of service; as well as supply planning and power transactions.

Marc-Antoine provides consulting services on energy policy matters to governments, trade associations and private companies across Canada. He also provides expertise and support on regulatory matters to electricity distributors in Ontario as an active member of Elenchus' Regulatory Solutions team and Insights.

Prior holding energy and regulatory positions, Marc-Antoine provided consulting support in the fields of municipal policy, urban water supply and sanitation and environmental management.

Marc-Antoine is fully fluent in both French and English.
